Portfolio: <https://portfoliojotaj.vercel.app/>

PROFESSIONAL SUMMARY

Front-End Developer with professional experience in JavaScript and jQuery and hands-on project experience with React, Angular and TypeScript. Contributed to the enhancement of more than 40 modules in a B2B ERP for foreign trade and logistics, including dashboards, REST API integrations and XML/PDF document generation. Information Systems student focused on responsive interfaces, reusable components and web application integration.

TECHNICAL SKILLS

Front-end: JavaScript, TypeScript, HTML5, CSS3, React, Angular and jQuery.

Interfaces and integration: Tailwind CSS, Bootstrap, Styled Components, REST APIs, JSON and responsive development.

Tools and projects: Git, GitHub, Figma, Vite, RxJS and IndexedDB. Additional knowledge of Python, Java and MySQL; AWS training in progress.

PROFESSIONAL EXPERIENCE

Prefeitura da Cidade do Paulista - Paulista, Pernambuco, Brazil

MAKER Support Intern | Sep 2026 - Present

- Support educational software development, programming activities and testing in the Expanded Learning Spaces unit (Gerência de Espaços Ampliados de Aprendizagem).
- Provide technical support to users, maintain and configure equipment, and assist with network infrastructure and cabling.

Ômega Comércio Exterior & Logística - Recife, Pernambuco, Brazil

Front-End Developer | Jul 2025 - Jun 2026

- Contributed to the development and enhancement of more than 40 B2B ERP modules supporting financial, legal and controlling processes.
- Built interfaces and dashboards with JavaScript and jQuery, and reusable components to standardize modules.
- Integrated interfaces with REST APIs and JSON data, and developed workflows for commercial proposals, billing and XML/PDF document generation.

PROJECTS

Motion Studio - Visual website and animation editor | 2026

React, TypeScript, Vite, Web Animations API and IndexedDB

- Developed a browser-based editor with editable pages, sections and layers, a keyframe timeline, animation previews and synchronized animations.
- Implemented local persistence, JSON project document export and ZIP website export, with React Bits component integration.

Live demo: <https://motionstudiodesign.vercel.app/>

AngularUniversity - University catalog

Angular, TypeScript, RxJS and Bootstrap

- Developed a single-page application to browse university data from a public API, with filtering, sorting, pagination, statistics and locally persisted favorites.
